OFFICE ACTION

1. This application has been assigned to Technology Center 1700, Art Unit 1723 and the following will apply for this application:

a. **Please direct all written correspondence with the correct application serial number for this application to Art Unit 1723.**

b. Telephone inquiries regarding this application should be directed to the Technology Center 1700 receptionist at ☎(703) 308-0651 or to the Examiner at ☎(703) 308-0112. Official facsimile correspondence filed before a final office action should be transmitted to ☎(703) 872-9310. Official facsimile correspondence which responds to a final office action should be transmitted to ☎(703) 872-9311. All *post-allowance* papers (e.g., Information Disclosure Statements, Rule 312 Amendments, petitions, etc.) should be mailed to **Box Issue Fee** or submitted via facsimile to ☎(703) 308-5864.

c. Inquiries regarding application status, matching responses with applications, patent term questions, locating and retrieval of applications, incomplete office actions, requests for copies of office actions and/or references, requests to remail office actions, small/large entity status, or other administrative inquiries should be directed to the **Technology Center 1700 Customer Service Center** at ☎(703) 306-5665.

Claim Objections

2. Claims 12-16 appear drawn exclusively to Species B as outlined below. However, claims 1 and 8 appear drawn exclusively to Species A. Accordingly, claims 1 and 8 are not generic to both Species A and B so claims 12-16 appear mutually exclusive to the subject matter of claims 1 and 8 (from which claims 12-16 depend). If Applicant elects Species B, it an amendment to claims 1 and 8 would be required so claims 1 and 8 embrace the subject matter of Species B or rejections under 35 USC 112 would have to be considered (see 37 CFR 1.141 and MPEP 809.02(c)).

Election/Restriction

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: Figures 1-3; and

Species B: Figures 4-5.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic as explained above.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a

Art Unit: 1723

listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Andrew Chu on 13 SEP 2002 to request an oral election to the above restriction requirement, but did not result in an election being made. It was requested that the requirement be mailed.

Art Unit: 1723

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Charles Cooley whose telephone number is ☎ (703) 308-0112.
7. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1700 receptionist whose telephone number is ☎ (703) 308-0651.
